

# *Funding Excellence, Inspiring Musical Talent*

## **Forte 3D Instruments**

Every talented young musician deserves an instrument that can keep up with his or her potential. In Indian River County, we are surrounded by rising stars who often lack access to the professional-grade tools required to reach the next level. We at IRSA are excited to offer you the opportunity to bridge this gap. Through our partnerships with Forte 3D, maker of cutting-edge carbon fiber instruments, and a dedicated network of inspired private teachers, we invite you to purchase a string instrument for a deserving student with exceptional promise. Your support will give a musical gift that is virtually indestructible in our Florida climate while offering the rich, warm tone of a professional violin or cello. You're not just buying an instrument; you are empowering vetted young artists and removing barriers to his or her success. Join us, and our local educators in "3D printing" a brighter future for Indian River's next generation of virtuosos.

For further information, please call us at (772)778-1070

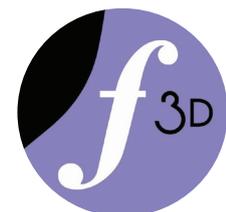

Instrument	Impact	Support Level
------------	--------	---------------

Violin	Empowers a promising young soloist by providing a brilliant, high-reaching Forte3D violin, allowing their talent to soar with an instrument designed for technical precision and melodic clarity. A carbon fiber bow and a protective case are also included.	\$2150
--------	---	--------

Cello	Provides a dedicated student with a professional-grade Forte3D cello, anchoring the ensemble with its rich, deep tones and ensuring the young musician has an instrument capable of commanding the stage. A carbon fiber bow and a protective case are also included.	\$3600
