

Funding Excellence, Inspiring Musical Talent

Forte 3D Instruments

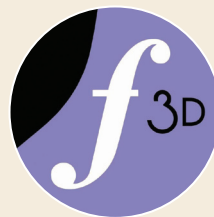

Your generosity can transform the future of a talented young musician in Indian River County with the gift of a professional-quality violin or cello. Carefully selected by local teachers, these promising young artists will receive an instrument that supports their growth and artistic development.

Working in partnership with Forte 3D, we are providing these innovative carbon fiber instruments which combine the rich, warm tone of traditional string instruments with exceptional durability, making them ideally suited for Florida’s climate. Unlike many traditional instruments that can be vulnerable to heat, humidity, and wear, these instruments are built to last. As students advance in their musical journeys, the instruments will be passed on to the next generation of deserving young musicians, extending the impact of your gift for many years to come.

More than an instrument, your sponsorship provides opportunity, confidence, and access – removing barriers that can stand between talent and achievement. By sponsoring an instrument, you are making a long-term investment in the next generation of musicians and enriching the cultural future of Indian River County. To learn more about sponsoring an instrument, please contact the Indian River Symphonic Association at (772) 778-1070 or make your donation online at www.irsymphonic.org.

Instrument		Impact	Support Level
Violin		Your gift provides a violin kit that includes the instrument, bow, and case.	\$1,850
Cello		Your gift provides a cello kit that includes the instrument, bow, and case.	\$3,600
